My Deepest gratitude and love to all the ones who gave the countless time with the kind attention. It was a great comfort and relief to know what you were willing to provide while I completed my work. My warm-hearted thanks to all the ones.

Introduction of our NGO's:

Introducing Navajeevan Seva Samiti: Empowering Through Education and Environment

Navajeevan Seva Samiti is a distinguished non-governmental organization (NGO) dedicated to fostering positive change in the realms of education and the environment. With a resolute commitment to serving underprivileged children, the organization operates at the intersection of education and environmental consciousness, aiming to create a brighter future for the marginalized sections of society.

At the heart of Navajeevan Seva Samiti's mission lies their fervent belief in the transformative power of education. The NGO envisions a society where every child, regardless of their socio-economic background, has access to quality education. Through their laudable efforts, they operate a school that not only imparts knowledge but also nurtures the holistic growth of students, equipping them with the skills needed to thrive in an ever-evolving world.

However, Navajeevan Seva Samiti's impact extends beyond the classroom walls. The organization recognizes the symbiotic relationship between education and the environment. By instilling a sense of environmental stewardship in their students, they are shaping conscientious citizens who understand the importance of preserving and protecting our planet for future generations.

DEFINITION:

A non-governmental organization (NGO) is a group of people from different countries acting together, but not connected with the government of any country. Usually non-governmental organizations are nonprofit - that is, they are trying to do something other than make money for the people who run them.

AIM AND OBJECTIVES:

Aims and Objectives of our Society are:

- To provide Social, Educational and Economic Empowerment to Children.
- To safeguard the rights of the Child and provide for the well-being of Children in need, more particularly,
 - a. Children exposed to any form of abuse,
 - b. Children deprived of education.
 - c. Children suffering from ill health, physical and mental.
- To identify the beggars and impress upon them the significance of dignified living and persuade them to take up an alternative livelihood and to take such measures to equip them in attaining such means of living.
- To provide medical and legal aid and assistance to the old aged and to take such other Measure to ensure their social wellbeing.
- To help each needy at time of covid-19 and to discuss facts among them.

Objective Of Our NGO:

The objective of the true NGO, the non-governmental organization, should be the social as well as economic welfare. The objective of the NGO should be to provide education to children so that their society develops with modern thinking and help the economy of the country with a good GDP. The Kalighat Trust is the great NGO of India who objects at providing educational facilities to all. They mainly work to bring the rural and the urban people together for a better society. The helps the rural people by the Akal Academies which is providing low-cost education to them. The Meenakshi Shiksha samiti child sponsoring organization who have helped many poor and unprivileged children to come ahead. They are educating 70000 students per year in the Akal Academies out of which 28052 are free/aided. They donate for the provision of education to all and to provide facilities to them. The Akal Academies render value-based education to the students which makes them more capable of being born in society with a good name. They are taught all the spiritual values which are needed to be a respected person. Knowing the importance of values, they always maintained the balance between modern scientific education and spiritual values. When the person gets proper education, awareness is created among them, they start thinking and the sense of questioning arises in them. This had led to the development of the economy as well. With education, employment increased in society, with which the income of the society also showed remarkable changes. With the improvement in the income, people started spending more on them, they started spending on their lifestyle, particularly on their health.

Scope of our Navjeevan Seva Samiti: Empowering Minds Nurturing Nature

Navjeevan Seva Samiti, a devoted educational NGO, aims to uplift society through accessible and high-quality education. Our scope encompasses a wide spectrum of initiatives, including establishing schools in remote areas, offering scholarships to deserving students, conducting skill development workshops, and promoting digital literacy. By fostering holistic growth and emphasizing skill enhancement, we strive to equip individuals with the tools they need to succeed, thereby fostering lasting positive change within communities. Our unwavering commitment to education as a catalyst for societal progress drives our scope, as we work to create a future where knowledge knows no boundaries.

Current Problem in Society:

Addressing the Crisis of Educational Inequity: A Call to Action

In today's world, one pressing issue stands out—the glaring educational inequity that hinders the progress of countless individuals. Our educational NGO is acutely aware of this societal challenge. Many students, especially from marginalized backgrounds, lack access to quality education and vital learning resources. This disparity perpetuates a cycle of limited opportunities and unrealized potential. Through strategic interventions, collaboration, and innovation, our NGO is dedicated to dismantling these barriers and paving the way for an inclusive educational landscape.

What was my work at NGO:

During my tenure as a teacher at C.L. Intermediate Collage's educational NGO from July 5th to July 19th, 2023, I had the distinct privilege of instructing students in both Computer and English subjects for the 6th grade. My role encompassed a diverse range of responsibilities, from planning and delivering engaging lessons to fostering a supportive learning environment.

In the realm of Computer education, I introduced students to the fundamentals of technology, equipping them with essential digital literacy skills. Through interactive sessions and practical exercises, I aimed to demystify complex concepts and empower students to navigate the digital landscape confidently.

Simultaneously, in the domain of English, I facilitated language development by employing creative teaching methodologies. By focusing on reading, writing, and effective communication, I aimed to enhance students' linguistic abilities and nurture their love for language.

My achievements during this brief yet impactful period include fostering a deeper understanding of both subjects, cultivating curiosity among students, and instilling a sense of enthusiasm for learning. Witnessing the growth and enthusiasm of my students was a rewarding experience, underscoring the importance of quality education in shaping young minds.

Conclusion:-

My tenure as a teacher at C.L. Intermediate College, facilitated by an educational NGO, has been a short yet profoundly rewarding experience. Over the span of just two weeks, I had the privilege of imparting knowledge and skills in the subjects of Computer and English to enthusiastic sixth-grade students. The collaborative environment at C.L. Intermediate College, coupled with the focused efforts of the NGO, allowed for a seamless teaching process.

During this brief but impactful period, I witnessed the students' eagerness to learn and their genuine curiosity. It was heartening to observe their progress, as they embraced the concepts of Computer and English, demonstrating a newfound confidence in their abilities. Through engaging lessons, interactive activities, and personalized attention, I aimed to instill not only academic knowledge but also a sense of empowerment and enthusiasm for learning.

As my time concluded at C.L. Intermediate College, I couldn't help but feel a sense of accomplishment knowing that I played a small role in contributing to the educational growth of these young minds. The experience reinforced my belief in the transformative power of education and the importance of collaborative efforts between NGOs and educational institutions. I am grateful for the opportunity to have been a part of this journey, and I look forward to the potential ripple effects that these foundations of learning will create in the lives of these students.

As there mentioned in certificate that I, Kartik Pandey worked at Navjeevan Seva Samiti from **05 July 2023 To 19 July, 2023**. So, I did not took pictures after 13 July because 40 hours are completed till date.
